
FAST FORWARD

Fast Forward is East Africa's premier leadership programme, for the leaders of 'Business Unusual' - the businesses and organizations of tomorrow.

Fast Forward is for those who want to uncover the real meaning of leadership, and bring nobility and higher thought back into organizational life.

LEADERSHIP UNUSUAL

Fast Forward is learning the old-fashioned way: through dialogue, questioning and probing in an environment that encourages interaction with a select group of peers.

Fast Forward takes a small number of carefully screened participants every year and provides an intimate learning experience. It combines age-old wisdom with leading-edge current management thought.

DEEP THINKING

Fast Forward is about ideas and group discussion, in an environment that stimulates deeper thought. Programme sessions are designed to generate debate and repartee. Participants will be encouraged to question their own assumptions and opinions.

Fast Forward is designed for leaders who wish to deepen their wisdom and discover their personal, authentic leadership assets.

LEARNING - THE FAST FORWARD WAY

One-on-One session: a confidential session with the Programme Leader to set out your personal goals and learning needs from Fast Forward.

Socratic Dialogues: dialogues in the tradition of Socrates - a structured progression of questions that reveal the intricacy of the topic under discussion.

Experiential learning: lively group exercises that reveal insights into the everyday practice of leadership.

Many-on-One session: a facilitated interactive meeting with the Programme Leader in small peer groups to share and embed learning.
